### Aims:

- to encourage and facilitate cooperation and networking,
- to share learning and experiences,
- to develop and strengthen the Chapter, particularly in the area of community participation.

### Who should attend:

Australian Chapter members, Alliance for Healthy Cities members, local governments staff and elected members, community members, researchers, policy and decision makers and anyone with an interest in Healthy Cities initiatives.

### Welcome

On behalf of the local organising committee and the Australian Chapter of the Alliance for Healthy Cities, I welcome delegates to this second meeting of the Chapter.

Healthy Cities Onkaparinga (formerly Health Cities Noarlunga) was established in 1987 as a pilot project and became incorporated in 1991. In that time we have focussed on a number of issues related to health, wellbeing and the environment. At our strategic planning day in 2008, members and friends identified six priority areas for our activities in advocacy and partnership building. The six areas are:

- Affordable housing
- Energy and climate change
- Health and wellbeing
- New communities
- Transport
- Water security

We also have two overarching priorities of community engagement & participation and Aboriginal health and wellbeing.

The theme of this Chapter meeting is 'Communities in Partnership for a Healthy and Sustainable Future'. This theme incorporates our priority areas for action and reflects current concerns about equity in health and environmental sustainability both locally and globally.

On behalf of the organising committee I hope you find the program interesting and enjoy the opportunity to see Healthy Cities in action. We all look forward to stimulating debate and the strengthening of our networks across Healthy Cities initiatives in Australia.

Chair, Local Organising Committee  
Gwyn Jolley
